

COVID-19 Test Results

Access via LabCorp

A significant number of COVID-19 specimens of North Country Healthcare (NCH) affiliate patients are processed by LabCorp, which provides results online via their patient portal. Although NCH hospitals share positive test results with the respective patients by phone, results may be viewed via Labcorp's online patient portal, where a paper copy of your results can also be printed.

To create an online patient portal through LabCorp, visit <https://patient.labcorp.com/>.

Patients are also welcome to call the Health Information Management Department of the NCH affiliate where the test was administered, for a printed copy: Androscoggin Valley Hospital (603) 326-5823; Upper Connecticut Valley Hospital (603) 388-4300; Weeks Medical Center (603) 788-5636.
